## LOWER YOUR ELECTRIC BILL IN A FEW SIMPLE WAYS

As the temperatures rise in the next few months, so will your electrical bill. You may rely on fans and air conditioning to keep cool at home. There are a few things you can do before you turn on your tower fan! Winning account numbers are 16852 and 6661.

1. You should keep your home's blinds and curtains shut so that you don't allow heat to freely enter your home.
2. You should always wear season-appropriate attire or take a cool shower whenever you need to cool off.
